EL DORADO COUNTY'S ONLY DAILY NEWSPAPER

WEATHER

Rain tonight, Saturday; high 47; low 37; precipitation .28.

VOLUME XLVIII

PLACERVILLE, EL DORADO COUNTY, CALIFORNIA, FRIDAY, FEBRUARY 18, 1938

NUMBER 40

4 MEETINGS IN FARM INDUSTRY

Secretary Of Agriculture Speaks Tuesday Morning At Sacramento Conference

Four meetings of interest to farmers of the county are planned for next week and were enumerated Friday morning by Farm Advisor Ivan Lilley so that any confusion concerning the meetings might be cleared.

"First, it should be remembered that the meeting on the California Tree Fruit Agreement, which was called for Monday morning, has been postponed until Wednesday morning at 10 o'clock at the Sacramento Chamber of Commerce auditorium," the Farm Advisor said.

"This is entirely separate and apart from the meeting on Tuesday, at which Henry A. Wallace, Secretary of Agriculture, will be a speaker. This meeting will be held at the California Junior high school at Sacramento, which is at the corner of Vallejo Way and Land Park Drive. To reach the school, turn south on Sixteenth Street and keep going across Y Street. Land Park Drive is an extension of Sixteenth Street beyond Y Street and the school is just a short distance from Y Street.

"Wednesday, then, is the California Tree Fruit Agreement meeting. Also on that day, committeemen and officials of the Agricultural Conservation Associations and of the Agricultural Extension Service are meeting at Sacramento in connection with the launching of the 1938 Agricultural Conservation Program. This is a meeting for the committee members and officials, who will report to their associations subsequently on the doings of this meeting.

"A fourth meeting of interest to farmers of this county is that of the agricultural committee of the state chamber of commerce, which will be held Thursday of next week at San Francisco."

Capt. Hoffman Granted Leave

999th Company Commander To Spend Indefinite Period At Home Near Snowline

Captain Don M. Hoffman, Army commander of the 999th CCC Company, lately transferred from Camp Snowline to a camp near Grass Valley, has been granted an extended leave from Army duties and has returned to this county to spend an indefinite period at his residence near Sportsman's Hall.

The captain has been on CCC assignment for four and a half years dating from 1933 when he was construction officer for the Fort Douglas District, Utah, being in charge of the building of CCC camps.

With the completion of camps at Winnemucca and Hawthorne, Nevada, Captain Hoffman was transferred to the Sacramento district and took command of the 999th Company at San Leandro, later moving with them to the Bear River camp, in Amador County, and still later to Camp Snowline.

In this location the 999th Company made an enviable record in camp efficiency as well as in athletics, and attained the distinction of being the model camp of the Sacramento district. Captain Hoffman has been connected with the Army, the U. S. En-

(Turn to page 4)

He'll Get A Shot, But A Long One

NEW YORK, (U)—The winner of the Jimmy Adamick-Harry Thomas fight here tonight will get a shot at Joe Louis' world heavyweight in April, promoter Mike Jacobs promised.

Besides New York, Jacobs said he was considering the home city of the winner for a projected fight—Detroit if Adamick wins, Chicago if Thomas is the victor. In case it is held in New York, April 8 will be the date because Madison Square Garden will be occupied by a circus the following week.

RELIEF BILL OKED

WASHINGTON, (U)—The senate appropriations committee today reported favorably the \$250,000,000 deficiency relief bill.

6 Bombers Complete Buenos Aires Hop

BUENOS AIRES, (U)—Five giant United States army planes known as "flying fortresses" roared across the Andes and the Argentine Pampas today and landed at this capital, completing a 5300-mile flight from Miami, Fla.

The sixth plane of the squadron was delayed in Lima by propeller trouble, but radioed it was en route.

After an uneventful nonstop jump of 2700 miles from Miami across the Caribbean and over the Panama Canal, the ships sped down the west coast landing at Lima yesterday.

RAIN TO CONTINUE SATURDAY

New Storm Adds .28 Inches To Season Precipitation In Placerville On Friday

RAINFALL

Feb. 13	.82
Feb. 14	.10
Feb. 15	.28
Feb. 16	.28
Total	34.83

The normal to March 1 is 28.12 in.

A new storm broke over Placerville early Friday morning and up to noon had left 28 of an inch of precipitation in Placerville boosting the total for the season to 34.83 inches which was .07 in excess of the expected normal rainfall to April 1 and more than six inches in excess of the March 1 normal.

"Rain tonight and Saturday, snows at high altitudes," was the official weather forecast of the bureau at San Francisco as reported by the United Press.

According to Ed. Willis, state highway maintenance superintendent, rain was falling as far east as Kyburz at 11 o'clock Friday morning and snow depths were as follows:

Four inches at Camino; 28 inches at Pollock Pines; 18 inches at Riverton; 22 inches at Pacific and 30 inches at Kyburz.

With no prospect of the weather clearing immediately, it was feared winter sports activities over the weekend might be curbed by the storm.

CHURCH SCOUT TROOP PLANS "FEED" FOR WEDNESDAY

By CHARLES IRISH

Wednesday night Troop 57 of Boy Scouts, sponsored by the Federated Church, held its regular meeting at the Junior Community Hall. Under new business the Flying Eagle Patrol will clean up the hall. Teddy Yates will be in charge of decorating the hall with antlers and with pictures relating to Scouting.

We will have a "feed" next Wednesday night. We had patrol corners and the Panther Patrol decided to collect five cents from its members at every other meeting.

The Beaver Patrol is planning a hike to start Sunday morning at 10:30 and they are going to order medallions. The Flying Eagle patrol will order medallions and a patrol flag.

There will be a troop hike a week from this coming Sunday, if we don't get rained out.

WINS ACQUITTAL

PHILADELPHIA, (U)—Mary Keenan O'Connor, 19 year old physical education student, was acquitted today of slaying Nancy Glenn, 5 year old daughter of a neighbor.

Influence

In spite of ourselves, we radiate an atmosphere of something, and it affects those who associate with us, even though they may determine not to be influenced by it.

If we are blue, grouchy, or pessimistic, we depress those about us. If we are vicious or have low ideals, we pull down those lives which touch us. If we are cheery, optimistic, energetic, we inspire these attributes.

The mother is especially influential in her circle, for the family is so dependent upon her, her contact is so continuous and, most important of all, those who get their standards from her are children whose dispositions and ideals are still plastic and in the formative stage.

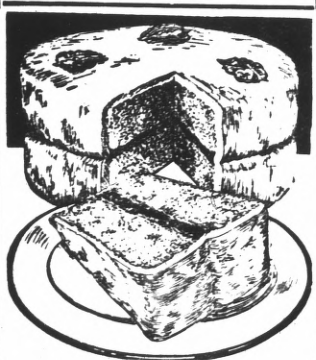

The wise mother will see that she keeps healthy enough to effervesce cheer, that she has sufficient rest and recreation to keep her outlook on life strong and courageous, that she exalts her children by an atmosphere of patriotism, of industry, of sincerity, of faith, and of altruism. It is not what we say which speaks loudest, but what we are.

When'er a noble deed is wrought,
When'er is spoken a noble thought,
Our hearts, in glad surprise,
To higher levels rise.

Honor to those whose thoughts and deeds
Thus help us in our daily needs,
And by their overflow,
Raise us from what is low!

Burning Homes

Many houses are set a-fire through the carelessness of a housewife. The greatest single cause of fires is the careless handling of inflammable fluids, as starting the breakfast fire with kerosene or dry cleaning recklessly with gasoline. Another carelessness is the leaving of oily cloths or dust mops in a closed corner, where the evaporation of the oil generates heat and finally flame. Such oily utensils should be

Delicious Cakes

Ingredients that go into our pastries have to conform to our own very high standards of quality, uniformity and purity. They are made from Betty Crocker recipes. You have your choice of many varieties.

NANNBERG OLLO

either plain or in salad dressings.

There are also certain soda-like compounds which make for strength and endurance. These are beans—and more beans—and fruit juices, such as lemon and orange and other fruit drinks.

Lean meat, skim milk, cottage cheese, eggs and beans will furnish the proteins needed to build muscle and strength. Coaches disagree about the use of coffee and tea, but all forbid tobacco and alcohol.

Beans and Peas

Very nourishing and inexpensive foods are dried beans or peas. You do not pay for water when buying them. They are meat substitutes and may be made acceptable by the family if well prepared. They should be soaked and thoroughly cooked. The addition of a little soda to the first water, and this poured off, will rid them of some gases. For people of delicate digestion, they may be put through a sieve to discard the tough outer coating.

To make them palatable, add plenty of fat, either butter, oleomargarine, meat fryings, a ham bone or pork. They may be seasoned with onion, celery, mangoes or other vegetables, bay leaf, chili powder, mint, or various spices. A soup in which all the contents are finely minced or strained, or a baked dish, such as our grandmothers used to make, with their stone bean crock and hours and hours of slow baking, makes a very delightful food. Brown sugar or molasses may be added to baked beans or peas.

Fashions, Fads, Foibles

The business woman, who stays downtown for the opera or hurries from the office to a social engagement, carries her frills with her in a large hand-bag, for she knows that fanciness is out of place in financial circles. It may be a fluffy collar, a bow, a flower, or costume jewelry, but it transforms her—both in appearance and in feeling—from a tired business girl to a social butterfly.

Deep, dark finger tinting refused to yield when Madame Grundy announced that it was passe. The lady of discernment tones her tints to correspond with her gowns and her occasions. For morning or for church, she wears a less gaudy color, but for evening she flashes out in all her glory.

Old-time nightgowns of long sleeves and high necks are again in vogue, and gowns divide the honors with pajamas. Materials range from chiffon to flannel.

Near-Sighted Pupils
In Special Class

SCHNECTADY, N. Y. —Ultra-modern indirect lighting fixtures and a photo-electric cell that regulates the intensity of light in the room have been installed in a Riverside school classroom for near-sighted students.

Textbooks with large type, paper with a green surface, special chalk and soft lead pencils also are provided for pupils in the sight-saving class. Sixteen students are registered.

The regular meeting of Kelsey Farm Center will be held this Friday, evening at the Kelsey Hall.

Put The Care Of Your Car
In Our Hands

WHEN? ... HOW FAR? ... WHAT DATE? ...
... HOW MANY MILES?

You Will Find Our Polite REMINDER SYSTEM
HELPFUL

- It is easy to overlook caring for your car when it really needs attention. Such services as lubrication (every 1000 miles), battery check (every two weeks), wheel bearings (5000-mile intervals), seem to slip busy minds.
- When once we service your car we check it completely and set up an individual card record for it. After that we send you a "polite reminder" whenever service is needed.
- You will find this "polite reminder" helpful in keeping your car in tip-top shape, and it will give you peace of mind, too.
- There is no charge for this extra service. Let us start your car's record now.

PARADE OF
SPORTS

By HENRY McLEMORE
(United Press Staff Writer)

NEW YORK. (UP)—Putting the sports shot here and there: James J. Carroll, the St. Louis bookie, stands to lose close to \$50,000 if Pompoon comes winging down in front in the Santa Anita \$100,000 handicap in March. Pompoon's owner, Jerry Loucheim, has wagered \$500 across the board on his colt when Carroll opened his winter book at 20-8-4. Sea Biscuit sloped one over on the railbirds at Santa Anita the other day by working a mile in the dark. It did it in good time, too—1:42 and a fraction—and appeared as sound as could be. When the delegates representing the British lawn tennis association attend the international meeting in Paris in June they will be armed with instructions to vote in favor of making the Davis cup a biennial event. I wonder why the Britishers didn't advocate such a change when the cup belonged to them? ... could it be that they didn't want to lose the cash that the cup always brings the holding nation? ... wonder what Sonja Henie's studio will think of that much box office appeal heading out over the Atlantic for Norway? ... if she wants to make the trip, though, she couldn't get a better pilot than Dick Merrill, who could take a barn door and an outboard motor and get as far as Newfoundland. There is no race of men more big-hearted than the operators of winter books as witness the 6 to 1 odds offered on Menow for the Kentucky derby. Menow is of extremely doubtful quality and owner Hal Price Headley said a few weeks ago that his horse had only a 50-50 chance of starting. Yet the bookies have installed him the favorite at 6 to 1 without official knowledge that the colt has been nominated. ... nominations closed and only Headley and derby officials know if Menow's name was entered. ... the Valdina Farm's Teddy's Comet is my February tip for the derby. Bill Terry now has three nice feuds in operation. One with the baseball writers, one with catcher Gus Mancuso, and one with Joe McCarthy. That must have been a sad blow to Don Heffner, his sale to St. Louis Browns. In the last two years Don played in fewer than 120 games but pulled down more than \$12,000 in the World Series Swag. It may be quite a spell before he cuts in on two world series with the Browns. Tommy Farr has the boys on the boxing beat guessing. ... seeking solitude, the Welshman has found a secret retreat.

"Country Woman" Buyer
No More, Say Retailers

ST. LOUIS. (UP)—The "country woman" customer has vanished from the Middle West, according to officials of the American Retailers' Association.

In her place is a style-conscious woman, fully informed by cinema, the newspapers and radio of the very latest mode of fashion. The result, according to the association's report, has been a boom in the dress and clothing trades.

Wife Divorces Spouse
Who Dared Think

SAN FRANCISCO. (UP)—Mrs. Galdys Carragher Cohen, 31, had a complaint of her own in a divorce proceedings brought by her 61 year old husband. "He just sat and thought by the hour," she said. She was granted the divorce.

and started training for his bout with Maxie Baer. Horace Stoneham, owner of the New York Giants, is candidate camera fiend No. 11,456,337. ... note to Lawson Little: where do you want that chipper sent, pal? Jimmy DeMaret's victory in the San Francisco match play open was a fine testimonial for chile con carne and tamales. ... the Texan eats only those two spiky dishes on the days when he is engaged in a serious match. I have been assured that shortstop Billy Knickerbocker was not bought by Col. Ruppert to advertise the beer he manufactures under that trade name.

Mother Of 5 Carries
14-Mile Mail Route

NORTH TURNER, Me. (UP)—The mail must go through.

And it does when Mrs. Hazen E. McAllester covers the rural free delivery route between North Turner and Leeds, a 14-mile round trip over the hills and through valleys.

The mother of five children, she has delivered the mail for five years in storm and flood without missing a single day.

INTUITION TRAPS THIEF

DALLAS, Tex. (UP)—Rosie Jordan decided a man shouldn't throw away a purse, even though it was empty. She called the police and they arrested an ex-convict for picking the pocket of Burt Horton.

Mrs. C. C. Tied was among the callers from Springfield section in the county seat on Tuesday.

Seeking A Victim

By Harry F. O'Niell

3,400 Shots Per Minute With New Type Gun

IOWA CITY, Ia., (UP)—A new type of machine gun said to be capable of firing 3,400 rounds of .45 calibre ammunition a minute, faster than any weapon used by the U. S. army, has been invented by Aura C. McNamer of Iowa City.

Experiments with the gun are now being conducted by a manufacturing company.

One of the revolutionary features of the gun is its seven-ounce recoil, achieved through a new counterbalanced breech block, according to McNamer.

Birth of a daughter, Catherine Elizabeth, to Mr. and Mrs. John H. Wilson, of Diamond Springs, at Placerville Sanatorium on February 13, was recorded at the courthouse on Friday.

**Women Slow To Repent,
Says Probation Agent**

PROVINCETOWN, Mass., (UP)—Men
can be made to see the error of their
ways, but most women seem to feel that
they know it all, says John A. Cook,
probation officer of a Barnstable court
in his annual report.

He would rather deal, he asserts,
with six men than with one woman.

810,185 VISIT EIFFEL TOWER, NEARING GOLDEN JUBILEE

PARIS, (UP)—Europe's tallest struc-
ture, the Eiffel Tower, had 810,185 vis-
itors during 1937, as against 264,145 in
1936. The total receipts for the past
year were about \$235,000.

Exposition years have always been
good ones for the tower. The record
attendance was in the inauguration
year of 1889, when 1,968,287 persons
climbed the structure or rode up more
comfortably in the elevators. Since
then the total number of visitors is
17,588,089.

In March of next year the 50th an-
niversary of the tower will be celebrat-
ed. Exceeded in height only by the
Chrysler building (1,040 feet) and the
Empire State building (1,248 feet), the
1,000-foot high structure weighs 15-
400,000 pounds and is composed of 12-
000 steel plates, held together by 2-
500,000 rivets. On clear days, points
55 miles distant are visible.

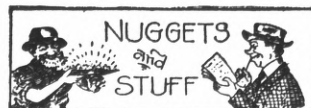

Recently installed on the summit
was a television station, to be op-
erated in connection with the Eiffel
Tower radio station.

BAY WORLD'S FAIR OPENS ONE FEAR FROM TODAY

SAN FRANCISCO, (UP)—One year
from today the Portals of the Pacific,
which is the main entrance to the
1939 Golden Gate International Ex-
position, will be opened for the world
to come and see the wonders being
created on Treasure Island.

Today the 400-acre, man-made is-
land in San Francisco Bay, the west's
world fair, a \$50,000,000 project, is
taking definite form.

The exhibit buildings forming the
main group—the homes and gardens
palace, the foods and beverages palace,
the hall of science, the mines, metals
and machinery building, the electrical
palace, the business efficiency palace,
and the vacationland buildings—are

Ho! Water again!

Maybe you won't get as big a "wal-
lop" out of the cover picture on this
week's Colliers as we did: The birthday
of the First President commemorated
by a radio gal warbling "America" in-
to a microphone. Tsk! Tsk! Tsk! But,
ain't it the truth?

Ha! Ha! Here's a honey: The Dem-
ocrats call on the Republican Dr. L. J.
Anderson to head our Better Housing
Campaign again. "Doc" may "fall from
grace" yet.

Some have suggested that the pro-
posed Placerville building code, on
which there will be a public hearing
Monday night at the city hall, would
do more to interfere with and discour-
age building in Placerville than it
would to promote building.

Nobody wants a "jerry-built" house,
but if someone wants to "fix up" a
place to live in, a building code might
prove a considerable stumbling block.

We hope we never lose sight of the
fact that Placerville is a small town
and as such is entitled to the benefits
of its classification. San Francisco,
Los Angeles, Oakland and Sacramento
are miles ahead of us in population
and if they need a lot of rules and
regulations, we can't help it.

Birth of a son, Robert John Fred-
erick, to Mr. and Mrs. John H. Cullup,
of Placerville, on February 15, was re-
corded at the courthouse on Friday.

virtually completed.

To the south of the main group is
the \$500,000 aviation palace and its
twin structure, the palace of fine arts,
both fabricated in steel and concrete.
To the west of these buildings is the
\$1,000,000 administration building. This
trio of permanent buildings for the
eventual Treasure Island airport is
nearly ready for occupancy.

McIntyre Paid Tribute By Old Home Town

GALLIPOLIS, O., (UP)—Oscar Odd
McIntyre, the New York newspaper
columnist, was honored in death yes-
terday by this small Ohio river town
which long had considered him its fa-
vorite son.

His funeral was brief and simple but
Gallipolis paid its last respects to Mc-
Intyre, who died in New York last
Monday, in a manner usually reserved
for statesmen or military heroes. Busi-
ness places were closed. School was dis-
missed. Almost everybody in town and
thousands from outside went to Gate-
wood, the McIntyre "Dream Home," to
see his body.

Mr. and Mrs. H. N. Farrell returned
last night from a two weeks vacation
in Southern California. En route home
they stopped in Fresno for a visit
with Mrs. Farrell's relatives.

W. H. Voiles came up from Berkeley
Friday.

SUSPICIONS SAVE LIFE OF WOMAN WITNESS MAILED BOMB

HAMILTON, Ont., (UP)—Mrs. Maude
Roberts escaped death when a parcel
containing a bomb exploded when she
opened it, burning her severely on the
face and arms.

Suspicious of the package, mailed
from Toronto, she held it at arm's
length when she cut the cord, a move
which probably saved her life, accord-
ing to the police.

The bomb was loaded with gunpow-
der fired by a spark from a dry cell
battery and wire coil. When the outer
string was released the cover sprang
up, giving contact to the battery, which
transmitted a spark to the powder.

Mrs. Roberts was a crown witness
in the trial of a man committed for
trial on an assault charge.

Mrs. Elsie Marden of the Green Val-
ley section is reported considerably im-
proved after several weeks illness.

30 KILLED AS TORNADO HITS LOUISIANA COMMUNITY

RODESSA, La., (U)—Fumes from a wrecked gas well spread across town today and added the danger of an explosion to the horror of last night's tornado that killed an estimated 30 and injured scores of persons.

The well was running wild beside its overturned derrick at the edge of this congested community oil field shacks and warehouses, where rescue workers were still plodding through the ruins left by the storm, hunting for more dead and injured.

A light rain had fallen yesterday afternoon. At dusk the weather was clearing and the rain had stopped. Many people had retired to their homes and for the night thinking they would awaken to a fair day. Then the tornado struck like lightning.

Rodessa is in the extreme northwest corner of Louisiana, where Louisiana, Texas and Arkansas converge.

Office Seekers Lack Place For Posters

SPRINGFIELD, Mo. (U)—Woodsmen have been sparing that tree for years, but politicians haven't. Because campaign posters nailed into the trunks have destroyed many of the town's finest shade makers, an ordinance was submitted to the city council to make it illegal to tack signs or cards on any tree. The vote getters are worried because a law now in effect prohibits decoration of telephone and electric light poles.

Nine Years In Prison For Reno Swindlers

NEW YORK, (U)—Justice Willis Van Devanter sentenced William J. Graham and James C. McKay, convicted Reno, Nev., swindlers, to serve nine years each in federal prison and pay fines of \$11,000 each. He gave the two men 20 days in which to return to Reno and arrange their business and domestic affairs before surrendering to the United States marshal here.

W. J. Davey was representing the Garden Valley district in the county seat on Thursday.

Mr. and Mrs. Jack Corker were in town Friday morning from Camino. Lawrence Barrette was up from Sacramento on Friday, attending to business at the Forest Service headquarters.

"Starving Tahoe City Folk" Get Relief; By Airplane, Too

TAHOE CITY, (U)—Life was dull in this summer resort town marooned by the winter's snow; business was practically nil and the food supply was monotonous. Party line telephones supplied what intercourse there was, and somehow the story about Frank Schneider killing his horse was garbled along the lines.

That, Schneider said, was the basis for the recent excitement, and so far as he knew, nobody here was eating horsemeat. At least, he wasn't. He was only joking about the horse.

The story that reached San Francisco, and was quickly relayed across the country to bring an airplane speeding here and dropping food by parachutes, came from Eleanor Swanson, one of the 50 snowbound residents of the town who seemed to have obtained her information over crossed wires.

Everybody here was subsisting on horsemeat, Miss Swanson reported. Eight people were ill. There had been no mail for a week. The meager provisions were being rationed from the general store. The only access was by ski, because snowdrifts 12 to 25 feet high covered the roads. The latter information was correct.

The story caused a widespread alarm. Mayor Angelo Rossi of San Francisco called Jack Frye, president of the TWA airlines in Kansas City. An airliner was chartered, loaded with food, boarded by pilots, co-pilots and newspapermen and rushed to the rescue. Word was telephoned here that succor was on the way.

The townspeople were a little bewildered but they swarmed to the city golf course, lighted flares for beacons and cheered their appreciation both for

the diversion and for the manna from the skies, as the plane arrived and five times circled overhead, then began discharging boxes of food tied to parachutes. Two boxes of meat split open but the meat was retrieved. A box of vegetables struck a tree and its contents were scattered and lost in the snow. The people cheered some more, the plane flew away, and then called began to come in from the outside world over the only telephone connection, from people inquiring if the crisis was relieved.

"Thanks for the fresh meat," the operator here replied. "We didn't need it but were glad to get it. We are accustomed to living up here in the winter time marooned. Oh yes, we were well stocked up on food as usual. There may be a few families at Brockway who could use more food but there's plenty here if they can buy it."

"Horse meat?" the operator exclaimed. "Yes, I understand that Frank Schneider at Glenbrook, got tired of canned food and killed one of his horses to provide fresh meat for his family." Schneider had told the neighbors he had some horsemeat, and invited them over, the operator added.

But Schneider said he hadn't. "That horse got stuck in a snowdrift the other day and I had to kill it. I guess it all started when I 'horsed' D. M. Brodehl, who runs the tri-weekly mail launch up here. He asked me if we had plenty of food and I jokingly said yes, we even had some horsemeat to spare if anybody wanted it."

Schneider said the meat dropped from the airplane would be sent to smaller settlements nearby, where somebody might need it.

City Managers Meet At Bakersfield

BAKERSFIELD, (U)—General problems of city government were under discussion today as delegates from nearly 50 California municipalities opened their two day managers' convention.

Manager Fred W. Nighbert of Bakersfield was in charge of arrangements for the conclave, attended also by county supervisors and other public officials.

Oliver Morosco May Have Broken Back

HOLLYWOOD, (U)—Oliver Morosco, 57, noted theatrical producer, was in serious condition today after being hit by an automobile. Police said he walked into an auto's path at Hollywood Boulevard and Vine Street. His spine was feared fractured.

Wright Awaits Hearing On Present Sanity

LOS ANGELES, (U)—Paul A. Wright, found insane at the time of a double slaying, fretted in a psychopathic ward today awaiting Monday's sanity hearing and probable freedom.

Wright, former president of Union Air terminal, killed his wife Evelyn and friend, John Kimmel, when he found them allegedly in abnormal embrace. He was convicted of manslaughter but saved from prison when the same jury found he was insane at the time of the slayings.

He cannot go free until his present sanity is established.

MICE TRAINED

EL PASO, Tex., (U)—How to rid the home of mice is no problem to H. L. Zollars. He trains them and sells them as pets. The gray mouse, the common house variety, is much superior in intelligence than the white mouse and makes a much better pet. Zollars said.

NEW ROSE BOWL TICKET PLAN URGED BY TOURNAMENT HEAD

PASADENA, (U)—President George S. Campbell of the Tournament of Roses Association today urged new arrangements with the Pacific Coast Conference to prevent a recurrence of the last Rose Bowl game situation. Alumni demands of the Universities of California and Alabama left no tickets for public sale.

Campbell said:

"The new board should make arrangements x x x for a sufficient number of tickets to give proper consideration to the people of Pasadena and Southern California who have so generously supported the game since the stadium was built."

Reinforcements Needed To Put Out Fire

MT. VERNON, Mo. (U)—A house was ablaze on the outskirts of town, but the fire truck wouldn't start. Firemen had to push it to the scene of the alarm. When they arrived they were too tired to fight the flames, so a second volunteer group took charge. The house was saved.

THRIFTY "60" FORD V-8 AVERAGES 28.85 MILES PER GALLON!

Officials presenting the Class B cup to owner and driver of the record-making Ford V-8

Leads All Cars at Its Price and Above by Setting Miles-Per-Gallon Record in Gilmore-Yosemite Economy Run!

COMPETING in this year's Gilmore-Yosemite Economy Run, held under strict A.A.A. supervision, a stock 1938 Thrifty "60" Ford V-8 Sedan made an average of 28.85 miles per gallon of gasoline! In hanging up this record, the Ford V-8 not only won first place in its price class, but also made the best miles-per-gallon showing of 23 cars, comprising all entrants at its price or above! Only 10.9 gallons of gasoline were used for the entire 314.5-mile run.

Capt. Hoffman Granted Leave

(Continued from page 1)

gineer Corps, the federal Bureau of Public Roads, the Geological Survey, the Federal Power Commission and the Forest Service during different periods since 1919.

In 1926 he was in charge of maps and surveys for the California Region of the Forest Service, with headquarters at San Francisco, and was locating and construction engineer on numerous highway projects, among them the 22-mile section on the east shore of Lake Tahoe in the Nevada Highway system.

He first became acquainted with El Dorado County a number of years ago when he was in charge of the triangulation and mapping of many areas, and later made several investigations on El Dorado County streams for the Federal Power Commission.

Captain Hoffman was for four years district manager for the Edward R. Bacon Company, one of the largest construction equipment supply firms in the state and in this capacity administered the work of the firm in Northern California and Nevada, dealing with contractors and city and county governments in construction projects.

He is a registered Civil Engineer, member of the Society of American Military Engineers, Fellow of the American Geographical Society and a member of the selection board for Reserve Officers in the Sacramento District of the Ninth Corps Area.

L. A. COUNTY COUNSEL RESIGNS \$10,000 POST UNDER FIRE

LOS ANGELES, (U)—Everett W. Mattoon has resigned his \$10,000 a year post as Los Angeles county counsel today as an aftermath of an automobile accident in Santa Monica last Saturday night.

Mattoon was given a sobriety test and held on an intoxication booking for a time following the collision, in which two other motorists were hurt. The booking later was reduced to failure to make a boulevard stop, and he was freed on \$3 bail.

Foreman Robert McCurdy of the county grand jury announced that circumstances of the crash would be investigated.

"Nibble" On War Debt Reported Spurned

WASHINGTON, (U)—A firm congressional "no" was reported today to have crushed a war debt payment proposal from an unidentified defaulter whose proposition might have opened American money markets to foreign borrowers now barred by the Johnson act.

Official sources refused to confirm this report. Denials ranged from unqualified assertion that war debts had not been discussed to assurance that there had been no consideration of matters relating to Great Britain, either as to debts or a reciprocal trade agreement.
